

Trainer Profiles

Protection Mainstreaming and Protection Information Management

Background

UNHCR has been providing capacity building support to ensure that the state's ability to provide the required protection of IDPs is strengthened. In 2022, UNHCR conducted a series of Training of Trainers (TOT) targeting key government agencies and civil society organizations, primarily UNHCR's project partners, across the six regions in Mindanao. The TOT provided the participants with basic training skills and comprehensive understanding of key principles and practical skills in Protection Mainstreaming and Protection Information Management.

The following are the profiles of the individuals who have successfully completed the Protection Mainstreaming and Protection Information Management training courses:

Protection Mainstreaming Trainers
